

The Kett Wiesel Handcycle

Technical data:

Total length: about 180 cm (flexibly adjustable)

Total width: 84 cm

Height: 69 cm

Weight: 18.5 kg

Ti front boom

Suspension: seat

All frame parts are coated with an extremely durable synthetic coating. This method of painting is particularly environmentally friendly.

Equipment:

Front wheel: 20 inch

Back wheel: 20 inch

shifting: Shimano 9-speed (big range: 1st gear: 2.3 m; 9th gear: 7.3 m)

Brakes: Formula disc brakes

Lights: front halogen light; rear light with safe stop function

Colours: RAL 3020 bright red, Black

The frame size can be adjusted on the Kettwiesel.

It can be ridden by persons with a height of 1.10 m to 2.00 m.

The KETT WIESEL Handcycle is based on the Kettwiesel yet is powered by a totally adjustable, Hand crank unit that incorporates braking, pedalling, steering and gear-changing. There are slings to hold your legs securely. Steering comes naturally as you lean the hand crank unit over so you can keep the power on around corners.

The beauty of this trike is not just in its light weight and adjustability, it can be attached to the rear of another Kettwiesel to make a tandem.
