

# The Kett Wiesel

The KETT WIESEL is a fantastic piece of engineering that is the most fun you will have on three wheels. It's low centre of gravity, direct steering and efficient drive train, coupled with a low weight mean that this little number really performs.

It is a very versatile machine that lends itself easily, to modification and adaptation for a whole variety of special needs. You can even couple it up with a friend and make a tandem!!

## **Technical data:**

Total length: about 180 cm (flexibly adjustable)

Total width: 84 cm

Height: 69 cm

Weight: 17 kg

Suspension: seat

All frame parts are coated with an extremely durable synthetic coating. This method of painting is particularly environmentally friendly.

## **Equipment:**

Front wheel: 20 inch

Back wheel: 20 inch

shifting: Shimano 9-speed (big range: 1st gear: 2.3 m; 9th gear: 7.3 m)

Brakes: Formula disc brakes

Lights: front halogen light; rear light with safe stop function

Colours: RAL 3020 bright red, RAL 5002 ultramarine blue

The frame size can be adjusted on the Kettwiesel. It can be ridden by persons with a height of 1.10 m to 2.00 m.
